AUTOMOTIVE INDUSTRIES

EDITORIAL INDEX TO VOLUME 106

Issues January 1 to June 15, 1962, Inclusive

A

Abstracts

	Issue	Page
Application of ball joints to front suspension	2-15	118
Combustion chamber deposition and power loss	2-15	58
Continental's gas turbines	5-15	41
Controls, inflation and collapse! Effect of chemistry and section size on ductile iron	3-15	327
Engineering the inspection of industrial processes	2-15	124
Factors affecting Diesel lubricant performance	2-15	120
Gas turbines versus reciprocating engines	6-15	56
Hardness, elastic modulus and wear of metals	2-15	37
Helicopters for the short haul	6-15	125
High lead copper-lead bearings for slow-speed Diesel engines	2-15	116
Machining data on high temperature alloys	5-1	46
Moraine-400 engine bearings	2-15	114
Practical applications of Hi-Jet System	2-15	37
Slipper type bearings for two-strokes	2-15	38
Diesel connecting rods	2-15	122
Special Air Force helicopter projects	6-15	122
Strangling the free competitive system	6-15	32
Surface finish -- Its effect on wear	2-15	120
Uses of titanium in turbines	5-15	90
Vendor quality level certification	6-15	146

Aircraft Design - See Design

Aircraft Engines - See Engines

Aircraft Parts - See New Developments & New Products (Features)

Aircraft Production - See Production Methods

Associations and Organizations - See also Government Agencies

AHS Annual Forum elects new officers and discusses recent helicopter development

AMA's National Exhibition features packaging methods by General Motors

ASQ - latest methods featured at quality control convention

ASTM 1962 Meeting outdoes former events

Huge ASTE Industrial Exposition opens in Chicago

SAE engineers are cool to copper substitutes in radiators

SAE National Aeronautic Meeting has international theme

Automotive Parts - See also New Developments & New Products (Features)

Automatic machining of intake manifolds

Combustion chamber deposition and power loss (abstract)

Costs reduced with stamped rocker arms at Toledo Stamping

Factory sales of replacement parts and accessories

Improved helical tappets for new Lincoln engine

Many automotive and aviation uses for hydraulic fluids

Monthly factory sales of replacement parts and accessories, 1946-1961

Muffler of improved design for high compression engine (Oldberg Mfg.)

New carburetor attachment compensates for altitude

New machines at Buick plant weld brackets to axle housings

Production of tank engine crankcases (Continental Motors)

SAE engineers are cool to copper substitutes in radiators

Simplified synchronizer for Clark transmissions

Spindle and pinion machining problems (Nash Motors)

Test results with dual-fuel car-buretor at high compression

	Issue	Page		Issue	Page
Aviation			Brakes		
Aircraft and aircraft engine production, by years	3-15	237	Testing brakes under severe operating conditions	3-1	28
Airframe weights (excluding spares) of civil aircraft shipments	3-15	238	Buses - See also Engines		
Airports and landing fields by size and type	3-15	241	Motor bus factory sales - by type of	3-15	96
Automotive and aviation industries' purchases of alloy and stainless steel mill shapes and castings	3-15	333	Specifications of 1962 city and intercity buses	3-15	158
Automotive and aviation industries' purchases of aluminum mill shapes and castings	3-15	335	Transit buses - number in use, deliveries and passengers carried	3-15	163
Automotive and aviation industries' purchases of carbon steel mill shapes and forms	3-15	334	Business Conditions - See also Production		
Building world's biggest bombers (Consolidated Vultee)	4-1	38	Business Pulse: The (Guaranty Trust)	1-15	52
Civil aircraft shipments - by months - 1961	3-15	238	Business Pulse: The (Guaranty Trust)	2-15	54
Commercial air transport in U.S. set record in 1961	2-1	80	Business Pulse: The (Guaranty Trust)	3-15	418
de Havilland's Vampire 10 Night Fighter (diagram drawing)	6-1	80	Business Pulse: The (Guaranty Trust)	4-15	52
Employment in aircraft and engine plants	3-15	238	Business Pulse: The (Guaranty Trust)	5-15	70
Fiat 0-39 jet plane has top speed of 560 mph	1-15	32	Company executives analyse their renegotiation problems at AI management conferences	1-1	54
Gas turbines necessary for small aircraft progress	1-1	46	Corporate profits before and after taxes	3-15	321
Gas turbines versus reciprocating engines	3-15	231	Industrial analysis of market	2-15	325
Helicopter model designations	6-15	36	Metals - analysis of market	1-1	58
Helicopter powerplant analysis discussed at AHS forum	6-15	231	Metals - analysis of market	2-1	60
Helicopters for the short haul (abstract)	6-15	36	Metals - analysis of market	3-1	43
Personal and transport aircraft shipments, 1961-1960	6-15	125	Metals - analysis of market	4-1	72
Piesack builds two versions of F-104 - Helicopter	3-15	238	Metals - analysis of market	5-1	70
Plastic aircraft development nears goal in England	6-1	74	Motor vehicles are vital to America's defense economy	3-15	167
Price of security -- analysis of military aircraft costs	6-1	48	Price of security - analysis of military aircraft costs	5-1	50
Problems that harass the aircraft industry	5-1	80	Renegotiation conferences at Detroit and Dayton	2-15	80
Refrigeration finds wider use in aircraft industry (Douglas Aircraft)	3-15	232	Renegotiation conferences in five industrial centers	6-15	38
Registered aircraft and pilot certifications	3-15	239	Strangling the free competitive system	6-15	32
Registered civil aircraft by engine classifications	3-15	239	Canadian Trade		
Registered civil aircraft by make	3-15	239	Canadian motor vehicle production by months	3-15	98
Registrations of civil aircraft by year of manufacture	3-15	239	Motor vehicle production in Canada 1960 Canadian motor vehicle registrations - by Provinces	3-15	98
Russian's jet warplanes	4-1	53	Carburetors - See New Developments & New Products (Features)		
SAE Annual Meeting featured new engineering developments - elects new officers	2-15	34	Car Descriptions		
SAE National Aeronautic Meeting has international theme	3-15	239	Belgian automobile and truck show attracts large field of exhibitors	2-15	32
Samson's Thunderjet (Republic Aircraft)	4-15	40	Buick's new features for 1962	1-15	44
Shipments of aircraft propellers and other products of their plants	3-15	241	Cadillac's new line has 160 hp engine	2-1	33
Shipments of civil aircraft engines and other products of their plants, 1961-1960	3-15	237	Cougar's new Lincoln (1962)	1-15	34
Shipments of complete civil aircraft and other products of their plants, 1961-1960	3-15	237	Datsun 8-17 Custom line features 160-hp V-8 engine	2-15	39
Special Air Force helicopter products (abstract)	6-15	122	Fiat's new V-8 engine develops 110 hp.	5-1	33
Specifications of 1962 U.S. and foreign civil aircraft	3-15	244	Ford passenger cars - three new lines announced	2-1	39
Specifications of 1962 U.S. rotary wing aircraft	3-15	242	Horsepower race: The Indianapolis Race cars in 1962 contest	2-15	49
Subcontractors have big part in Martin aircraft production	6-1	33	Italy's automobile show dominated by American cars	6-15	44
U.S. civilian aircraft scheduled air carrier service, July 1, 1961	3-15	240	Mazda has new bodies and styling for 1962	6-15	37
U.S. civil aircraft registrations by states	3-15	240	Mazda 50th Anniversary models	3-15	42
Axles - See New Developments & New Products (Features)			Oldsmobile features more horsepower and improved styling for '62	2-1	34
B			Several new cars displayed at 1962 Geneva Automobile Show	6-1	114
Bearings - See also New Products & New Developments			Specifications of 1962 British passenger cars	3-15	164
High lead copper-lead bearings for slow-speed Diesel engines (abstract)	2-15	116	Specifications of 1962 other foreign cars	3-15	165
Moraine-400 engine bearings (abstract)	2-15	114	Specifications of 1962 passenger cars	3-15	165
Slipper type bearings for two-stroke Diesel connecting rods (abstract)	2-15	38	Willys-Overland - mechanical features of new passenger car	1-1	36
Bodies - See also Design, General Trends			Chemicals - See New Developments & New Products (Features)		
Construction of the Willys-Overland body and frame	4-15	46	Cleaners - See also New Developments & New Products (Features)		
1962 passenger car body dimensions - height and length	3-15	132	Fast economical descaling by use of induction heat (International Harvester)	1-15	43
1962 passenger car body dimensions - width and misc.	3-15	131	Connecting Rods - See New Developments & New Products (Features)		
Seven steps in making a plastic body frame	5-15	46	Conservation		
Vibration testing Henry J body and frame	1-1	32	Vehicle components rebuilt in Army operated plant at Tokyo	6-1	64

AUTOMOTIVE INDUSTRIES--INDEX

January 1, to June 15, 1952

	Issue	Page		Issue	Page		Issue	Page
Contracts			Engines - Continued			Fuels		
Another fastest five hundred - Indianapolis Race story	6-15	44	Internal combustion engine production	5-15	271	Farm expenditures for petroleum products and tractor repairs	5-15	106
Highlights of the 1952 Mobilgas Economy Run	6-15	50	Jet engine parts made on huge presses	5-15	54	Impact of defense activities on petroleum fuel supplies	5-15	254
New records foreseen for 500-mile classic at Indianapolis	5-1	40	Lincoln engines built and tested	5-15	52			
Contracts			Computerized aircraft design	2-15	48	Fuel Systems		
Company executives analyze their renegotiation problems at AI management conferences	1-1	54	Lincoln's 1952 engine (diagram)	5-15	120	Fuel tanks formed with hydraulic pressure (Douglas Aircraft)	1-15	33
Defense contract awards	1-15	118	Progress in engine design	5-15	230			
Defense contract awards	3-15	436	Registered civil aircraft by engine classifications	5-15	230	G		
Defense contract awards	4-15	120	Rotating valve tractor engine (Ferguson)	4-15	53			
Defense contract awards	6-15	62	Shipments of civil aircraft engines and other products of their plants.	5-15	237			
Defense contract awards	8-15	132	Specifications of 1952 automotive Diesel engines	3-15	282	Gases - See New Developments & New Products (Features)		
Renegotiation conferences at Detroit and Dayton	2-15	80	Specifications of Diesel engines for use in Diesel-electric locomotives	3-15	289	Gasoline - See Fuels		
Renegotiation conferences in five industrial centers	6-15	32	Specifications of 1952 automotive gasoline engines	3-15	272	Gears - See also Axles, Transmissions, New Developments & New Products (Features)		
Conventions - See Meetings			Specifications of 1952 U. S. aircraft engines	3-15	290			
Copper Industry - See Metals			Specifications of 1952 U. S. and British aircraft gas turbines	3-15	248	Grinding - See New Developments & New Products (Features)		
Crankshafts - See New Products (Features) & New Developments			Specifications of 1952 U. S. outboard motors	3-15	290			
D			Specifications of 1952 U. S. small gasoline engines	3-15	288			
Dealers - See Marketing			10-15 jet engines - new Model J47-W-27 announced by GE	4-15	44	Gears - See also Axles, Transmissions, New Developments & New Products (Features)		
Descriptions - See Car, Truck, Airplane, Engine, New Developments and New Product (Features) descriptions.			Three cylinder Diesel powers new Gee Bee	2-1	55			
Design, General Trends - See also Bodies			Total engine hp of civil aircraft engine shipments	3-15	239			
Average car weight and engine hp	3-15	130	Two strokes Diesel of unique design, Model D2 (Lever Motors)	1-1	26			
Combination chamber deposition and power loss (abstract)	2-15	36	Uses of titanium in turbojets (abstract)	6-15	90			
Design trends in commercial vehicles and engines	4-1	90	Exhibits - See Shows					
1952 passenger car body dimensions - height and length	3-15	132	Exports & Imports, Tariffs					
1952 passenger car body dimensions - miscellaneous and width	3-15	131	Copper exports	3-15	338			
Progress in engine design	3-15	130	Copper imports	3-15	338	Guns & Gun Products		
Diesel Engines - See Engines			1951 exports of new vehicles are 85% of total automotive exports	3-15	128	Producing artillery shells by mass automotive methods	3-1	33
Distribution - See Marketing			U. S. exports of automotive products, 1949-1951	3-15	127			
Drills - See New Developments & New Products (Features)			U. S. exports of new motor vehicles, 1920-1961	3-15	126	H		
Drives - See Transmissions			U. S. exports of new trucks and chassis	3-15	127			
Earnings - See Financial News			U. S. exports of tires and tubes	3-15	127	Heat Treatment - See Metallurgy & Production Methods		
Electrical Equipment - See also New Developments & New Products (Features)			U. S. imports for consumption, 1939-1951	3-15	128	Highways		
Testing electrical units with self-contained diagnostic equipment	6-15	48	U. S. imports of new passenger cars	3-15	126	France set to launch broad road program	6-1	39
12-volt electrical systems predominate on European cars	5-1	110	U. S. motorcycle imports, 1948-1951	3-15	126			
Employment			F					
Employment and wages in metal-working machinery plants	3-15	329	Financial News - See also Company Listings			Ignition Systems - See New Developments & New Products (Features)		
Employment in aircraft and engine plants	3-15	238	Business Pulse: The (Quaranty Trust)	1-15	52			
Total U. S. employment	3-15	324	Business Pulse: The (Quaranty Trust)	2-15	54	Illumination - See Highways & Production Methods		
Engines			Business Pulse: The (Quaranty Trust)	3-15	49	Imports - See Exports & Imports		
Aircraft and aircraft engine production, by years	3-15	237	Business Pulse: The (Quaranty Trust)	4-15	419	Industrial Relations - See Employment, Management, & Labor Relations		
Almost 300 ton-miles per gallon with two-stroke Diesel, the Krauss-Maffei engine	2-15	40	Business Pulse: The (Quaranty Trust)	5-15	62	Inspection - See Production Methods		
Average car weight and engine hp	3-15	130	Business Pulse: The (Quaranty Trust)	6-15	70	Instruments - See New Developments & New Products (Features)		
Continental-Turbomeca gas turbines (abstract)	6-15	41	Company executives analyze their renegotiation problems at AI management conferences	1-1	54	J		
Design features of small gas turbine for driving ship generator (Solar Aircraft)	1-1	33	Controls, inflation and collapse! Corporate profits before and after taxes	3-15	337			
Design trends in commercial vehicles and engines	4-1	90	Farm expenditures for petroleum products and tractor repairs	3-15	321	Junking		
Delco's overhead valve V-8 engine design details	2-1	44	Federal government finance	3-15	106	Estimated scrappage of motor vehicles	3-15	106
Details of the new Cummins horizontal opposed 200 hp Diesel, Model NHHB-600	3-1	56	Manufacturers' sales, dollar volume	3-15	321			
Ford introduces three new truck engines	2-1	52	Per capita income payments to individuals	3-15	322	L		
Ford's OHV Six develops more power with less displacement	2-1	56	Price of security -- analysis of military aircraft costs	6-1	50	Lacquers - See Finished		
French gas turbine truck has two front axles	2-15	52	Purchasing power of the 1950-1952 dollar	3-15	321	Lathes - See New Developments & New Products (Features)		
Gas turbines necessary for small aircraft progress	1-1	46	Renegotiation conferences at Detroit and Dayton	2-15	50	Lead Industry - See Metals		
High lead copper-lead bearings for slow-speed Diesel engines (abstract)	2-15	116			Legislation - See also Taxes			
Impressed hydraulic tappets for new Lincoln engine	3-1	56			Government policies hit car sales in Australia	5-15	74	
					Lights - See New Developments & New Products (Features)			
					Lubrication & Lubricants			
					Factors affecting Diesel lubricant performance (abstract)	2-15	120	
					Proper lubrication vital on truck assembly lines	4-15	51	

AUTOMOTIVE INDUSTRIES--INDEX

January 1, to June 15, 1952

M	Issue	Page	Metals - Continued	Issue	Page	New Production and Plant Equipment Continued	Issue	Page
Machine Tools - See also Developments & New Products (Features)			SAE engineers are cool to copper substitutes in radiators	4-1	42	Air-powered nut runner, Power Torque Tool Model MA-25 (Gurvin Bros.)	5-15	58
Index of machine tool new orders and shipments	3-15	328	Steel castings have passed peak in automobile industry	5-1	30	Arbor presses (Benchmaster)	5-15	54
Maintenance Factory - See Production Methods			Shipments of aluminum fabricated products	5-15	326	Atomic hydrogen transformer		
Marketing - See also Used Cars & Exports & Imports			Shipments of steel products by market classifications	5-15	322	Automatic feed for stamping presses (Producto)	5-1	52
Automotive wholesale and retail outlets by states	3-15	102	Slab zinc production, shipments, stocks	5-15	326	Automatic machine for cylinder blocks (Mat'l. Automatic Tool)	5-1	58
Automotive wholesalers, dealers and repair shops - by years	3-15	102	Steel ingot production	5-15	322	Automatic machine for intake manifold (Cross)	5-1	59
Materials Handling			Tin production, consumption, stocks	5-15	322	Automatic reversing pump (Tuthill)	5-15	535
Conveyors and conveying equipment (shipsments)	3-15	330	U.S. primary aluminum production	5-15	326	Balancing machine (Annis)	5-15	545
Economic handling of small castings for engines	4-15	50	Uses of titanium in turbines (abstract)	5-15	90	Ball bearing torque tester (GE) (Heat-Seat)	5-15	60
General Motors packaging methods for the 1952 International Exhibition	5-1	44	Wider uses found for textured metals	5-1	51	Belt grinder for portable tools (Carborundum)	5-1	63
Industrial trucks, tractors, trailers & portable elevators (shipsments)	3-15	330	Military Equipment & Activities Army's newest cargo tractor, the "Husky"	1-15	53	Bending machine (Bruthers Wells)	5-15	58
Modern handling cuts furnace loading time (Fafnir Bearing)	1-1	45	Army vehicles reclaimed in huge salvage operation	1-15	116	Brassng flux for titanium (Handy & Harman)	2-1	57
Overhead traveling cranes and monorail systems (shipsments)	3-15	330	Defense contract awards	1-15	425	Carbide tipped cutters (Continental Tool)	4-15	60
Potential automotive market in Latin America	5-1	34	Defense contract awards	4-15	120	Cold-settled milling cutter (Walco)	3-15	543
Number of U.S. firms increasing value of shipments of excavating and earthmoving equipment	5-1	74	Defense contract awards	6-15	62	Chilling machine (Sub-Zero Products)	3-15	540
3-15	330	Impact of defense activities on petroleum fuel supplies	6-1	54	Chuck (Scully-Jones)	3-15	547	
Mechanical Handling - See Production Methods, New Developments & New Products (Features)			New French vehicle for land or water	3-1	22	Circular chart controller (Brown Instruments)	5-1	62
Meetings			New military vehicles developed in Holland	4-1	44	Circular pattern drilling machine (Machine Makers of Great Britain)	3-1	46
Auto 1952 meeting outdoors former events	4-15	42	Operations in extruding hollow steel propeller blades	3-15	254	Combination drilling and tapping machine (Naefson)	3-15	541
Company executives analyze their renegotiation problems at AI management conferences	1-1	54	Producing artillery shells by mass automotive methods	6-1	62	Compound contour jet blade grinder (Norton)	4-15	62
Latest Methods featured at quality control convention	6-15	144	Production highlights of Cadillac-Cleveland tank plant	6-1	54	Compound table tapping machine (Cleveland Tapping)	3-15	548
Renegotiation conferences at Detroit and Dayton	2-15	50	Renault for transfer machines for Fregate mass production	6-1	32	Compressor wheel grinding machine	3-15	548
Renegotiation conferences in five important centers	6-15	38	Rocket for bazookas (Ford Motor Co.)	6-1	62	Contour projector, Model 2A (Faro-Kodak)	5-1	62
SAE Annual Meeting featured new engineering developments	2-15	34	Specifications of Military cargo vehicles	5-15	38	Couberhouse set (Continental Tool)	5-15	552
SAE National Aeronautic Meeting has international theme	5-15	40	Specifications of 1952 U.S. and foreign military aircraft	5-1	33	Crane, industrial (Elliott-Parker)	5-15	544
Merchandising - See Marketing			Tank hull output upped by new techniques (Baldwin-Lima-Hamilton)	2-1	46	Cutting oil (Ogilv)	2-15	68
Metallurgy			Testing automotive equipment under severe arctic conditions (U.S. Army)	2-15	162	Cylindrical grinding machine, Type CTU (Morton)	3-1	47
Aircraft magnesium castings must meet exacting requirements	2-1	40	Testing requirements for military vehicles	2-1	54	Die center (DALL)	3-1	48
High production heat treatment of steering gear parts (Rosa Gear)	1-1	60	Vehicle components rebuilt in Army operated plant at Tokyo	1-1	34	Die casting machine (Lake Erie Engr.)	4-1	60
Metals - See also Metallurgy			Motor Boats - See also Engines	3-15	291	Die head - self opening (Stern Mach. Screw)	3-15	548
Aluminum Industry in 1951; The Annual steel production by processes	1-15	53	Motor boat registrations by customs port	3-15	162	Dielectric line, carbon (Henry & Wright Div.)	3-15	546
Automotive and aviation industries' purchases of alloy and stainless steel mill shapes and castings	3-15	332	N	3-15	242	Double-action toggle presses (Bliss)	2-15	66
Automotive and aviation industries' purchases of carbon steel mill shapes and forms	3-15	332	NEW DEVELOPMENTS	3-15	38	Double-spindle milling machine (Nichols-Morris)	3-15	558
Automotive industries' purchases of iron castings	3-15	334	New Production and Plant Equipment	4-15	35	Drafting machine scales, Duraline (Universal Drafting Machine)	4-1	68
Bauxite imports for consumption	3-15	335	Abrasive belt grinder & polisher (Vogelzang)	3-15	535	Drill shell trimmer, Model ST-2 (Dayton Corp.)	5-15	542
Copper exports	3-15	335	Abrasives, grinding belt, 2M (Scallop-Kage (Minnesota M. & M.)	4-15	60	Drilling and tapping machines (Bühr)	5-15	545
Copper Imports	3-15	335	Air-cooled engines (Continental Motors)	3-1	53	Drilling machine for tank parts (Bühr)	4-15	55
Copper production, deliveries and stocks	3-15	335	Aircraft cylinder head backspot-facing machine (Snyder Tool Engr.)	4-1	62	Drilling unit (Black Drill)	2-15	76
Effect of chemistry and section size on ductile iron (abstract)	2-15	124	Air cylinders (Westinghouse Air Brake)	3-15	840	Duplicating machine, Copyflex	6-15	57
Properties of metal alloys and wear of metals (abstract)	2-15	37	Aircraft tube bender, Size 3/4 (P.W. Engr.)	6-1	58	Dust collector (Pangborn)	3-15	411
Machining data on high temperature alloys	5-1	46	Air cylinder, K-1 Super Cushion line (Tomkins-Johnson)	4-15	62	Dust collector for parts injection (Met-L-Che)	6-1	60
Metals - analysis of market	1-1	58	Air-driven grinding spindles (P. & W. Div., Miles-Bendix-Pond)	3-1	53	Electron drill, Model 61 (Elox)	3-15	584
Metals - analysis of market	2-1	60	Air line filter (Norrgren)	4-15	58	Electronic ball zoning and segregating machine (Merv Engr.)	3-15	411
Metals - analysis of market	3-1	43	Air-operated balancing machine (Micro-Poise)	3-15	545	Flexible hose (American Vent. Hose)	3-1	62
Metals - analysis of market	5-1	70	Air power squaring shears (Ward Mach. & Tool)	5-1	62	Forging presses for high-speed operation (E.W. Riles)	5-15	542
Montana chrome deposits will be re-opened	5-1	70	Air-powered countersinking tool (Cleco)	5-15	62	Fork lift trucks, Diesel and gasoline powered (Buda)	6-15	62
1951 distribution of carbon, alloy and stainless steel	3-15	332	Air-powered drilling unit, Hydrat (Bellows)	3-15	565	Gear hubber with handwheel operated draw bar collet, Model No. 1 (Hamilton Tool)	4-15	58
Present and alternate SAE steels	3-15	334	Air-powered hydraulic drill (Rockwell Mfg. Co., Delta Power Tool Div.)	3-15	567	General purpose circuit breaker panelboard, P.E. Electric-Center (Bulldog Electric)	6-1	60
Refined lead production, shipments, stocks	3-15	335	Grinding and chamfering electrode, Chamferfrode (Eutectic)	3-15	55	Gouging and chamfering electrode, Chamferfrode (Eutectic)	4-1	56
Roslyn metal undergoes high temperature tests	5-15	102	Grinder, No. 10, for flat grooved or curved surfaces (Kx-Cell-O)	1-15	56	Grinder, Type CHW (Landis Tool)	1-15	56
			Grinding wheel dresser, Tangi-Matic (Perfex Gage)	3-15	568	Grinding wheel, (Manhattan Rubber)	5-15	556
			Grooving tool (Walden Hobnoor)	3-15	566	Grinding wheel dresser (Baldwin)	3-1	48
			Hammer for heavy dies (Hanford)	4-15	60	Hardening compound for steel and cast iron, Hard 'N'Tuff (Doughy)	4-16	61

New Production and Plant Equipment - Continued	Issue	Page	New Production and Plant Equipment - Continued	Issue	Page	New Products - Continued	Issue	Page
Heat transfer unit (Kold Hold)	4-15	60	Press unloader-mount (Sahlin Engr.)	2-1	56	Automotive enamel line (Bruning)	3-15	468
Heavy-duty double housing planers (Hamilton Div., Clearing Machine)	4-1	55	Pull down automatic broaching machine (Colonial Broach)	6-15	57	Barrel finishing compound, No. 1 (Blue Magic Chemical)	1-15	78
Heavy-duty punches (Richard Bros.)	3-15	411	Punch press (Wysong & Miles)	2-1	58	Battery eliminator with selenium rectifier circuits, Model SC (Sun Electric)	4-1	64
Helical gear grinder, Model 30F (National Broach)	2-15	56	Radial plug gage (P & W Div.)	3-15	410	Bolt Extensometer (Baldwin-Lima-Hamilton)	1-1	66
High speed preamplifier, Model HL-904 (RCA Development)	5-1	62	Niles-Bement-Pond	3-1	46	Brazing material (A. E. Umann)	6-1	122
High-lift platform truck, Worksafer (Yale & Towne)	4-15	61	Relieving lathe (Kurt Organ)	3-15	59	Bright metal protective coating (Minnesota M. & M.)	6-1	120
High pressure air sage, Dimensionair (Federal Products)	4-15	61	Rigid and flexible for jet engine parts (Monarch Mach. Tools)	3-15	60	Capsnut (Security Locknut)	2-1	21
High speed low-priced copying machine, Model 30 (Bruning)	3-15	587	Rotary table with dual cross-feed, Palmgren No. 85 (Chicago Tool & Engr.)	3-15	536	Casters, 1000 lb. (Hollis)	2-15	90
High vacuum tool steels (Vulcan-Alloy)	3-15	560	Rubber compound for molding diaphragms (Acumet)	4-1	61	Combustion analyzer, K-806 (Allen Electric)	3-15	470
Hooding press (Elmes Engr.)	1-15	58	Shaper with magnetic clutch (Cincinnati Shaper)	4-1	58	Coolant separator (Sundstrand Magnetic)	1-15	80
Hot-spray paint heater, Model R (Bede)	3-1	52	Shaping machine (British Industries)	2-1	56	Cooling system cleaner (Tripp Mfg.)	6-15	64
Hydraulic cylinder (Miller Motor)	2-15	72	Small hole air gage plug (Taft-Tierce)	3-15	549	Cooling system filter, Model E (Spangler Liner)	3-1	34
Hydraulic press (Elmes Engr.)	2-15	68	Snap action switch (Micro Switch)	6-1	62	Cover receiver (Baldwin-Lima-Hamilton)	1-1	74
Hydraulic remote control (Superdrive)	3-15	561	Solenoid air control valve, Series B-3 (Hamlin)	6-15	56	Cutter driving device (Cross)	1-1	66
Hydraulic straightening press features two-dimensional positioning (E. W. Bliss)	5-15	58	Solvent-Vapor Degreaser, Model VS-800 (Drexel)	1-1	64	Eaton Mfg.	4-15	64
Hypoplastic chambering machine, Model 2041 (Modern Industrial Engr.)	4-1	61	Spirits washer (Drexel)	4-1	57	Directional signals (Spartan Automotive)	6-1	122
Indicator holder, Model 200 (Cullen)	2-15	78	Split-flange clamp (Anchor Coupling)	3-15	554	Directional signals (Yankee Metal Products)	6-1	124
Induction heating generator, LDF (Reeve Electronics)	4-1	62	Stop collar and stop nut (National Broach)	6-1	63	Door lights, Model 30 (Dietz)	2-1	64
Jaw chuck (Buck Tool)	3-15	550	Stop collar and stop nut (Holder, Metal Cutting Tools)	3-15	545	Electric furnace, Type SL (Cooley Electric)	2-1	76
Jet blade contour checker (Sheffield)	3-15	410	Surface grinder (DoALL)	3-15	411	Electronic test equipment (Nastings Mfg.)	6-15	64
Job boring and milling machines (American Sigm)	3-15	541	Table model fatigue testing machine, Model SF-2 (Baldwin-Lima-Hamilton)	4-1	56	Emergency light, Flash-A-Signal (Auto Lamp)	3-1	64
Key-operated pushbuttons (Westinghouse)	3-15	46	Tangent bender (Cyril Barb)	1-15	56	Engine pre-heater for cold starts (South Wind)	3-15	468
Knuckle-joint press (E. W. Bliss)	4-1	57	Tool grinder, Types 10TD & 14TD (Standard Electrical Tool)	3-15	542	Engraving machine, Engravograph (New Hermes)	2-1	72
Large-hole turntable, Model X-2011B (Aronson Machine)	6-15	87	Tool holder, eight position, for vertical mill (Davis Boring Tool)	3-15	410	End mill eliminating fixture, Dual Edge, J-2022 (Kent-Moore)	4-1	68
Lathe for contour turning and internal copying, the GF (New Britain Mach.)	6-15	60	Tools for fabricating stainless steel tubing (Imperial Brass)	3-15	544	Expander for larger piston ring (Zim)	3-15	470
Lift switches, type ML (Imperial Brass)	3-15	60	Tote boxes (Kerlow Steel)	2-15	76	Furnace-controlled atmosphere, Model G (Gas Furnace)	1-15	76
Machine vise head (Cross)	3-15	411	Transfer machine, progressive inline (Wacht & Merryweather)	6-15	56	Gage-radial play (P. & W. Div., Niles-Bement-Pond)	1-1	70
Machine for exhaust manifolds (Cross)	6-15	60	Transfer machine, Transfermatic (Cross)	4-1	56	Gasoline and Diesel engine preheater (South Wind)	6-15	64
Machine for ferrule contracting (A. Schrader's Son)	3-15	534	Transfer machine for V-8 blocks, Transfermatic (Cross)	4-1	60	Generator short finder (International Products)	4-10	68
Machine tool for oil pump bodies (Cross)	2-1	56	Trimmer (Pullmax)	2-15	76	Hand lift pallet truck (Yale & Towne)	2-1	64
Magnetic driving devices, Impact "Supersockets" (J. H. Williams)	5-15	62	Trunnion-type machine (Bühr)	2-1	56	Headlight glare eliminator, Polarization Light (Electronic Developments)	4-15	64
Magnetic oscillograph amplifier, model 1000-W (Cross Development)	3-15	410	Tube mills, non-ferrous (Yoder)	6-15	58	Hydraulic control valves (American Industries)	1-15	124
Manual tools for drilling and milling machine (Letourneau)	3-1	52	Unit work benches for continuous or intermittent stations, 640 Series (Standard Pressed Steel)	6-1	58	Hydraulic lift (National Lift)	1-15	129
Material for corrosion protection (Murray Products)	4-1	61	Universal amplifier, Model RL-360 (Bruab Development)	6-15	60	Hydraulic power test stands (Super-draulic)	1-1	50
Mechanical indexing table (Turner)	3-1	48	Universal dial test indicator (Lufkin)	3-15	546	Indexing table-optical (F. T. Griswold)	1-15	101
Metal forming machines use hydraulically pressurized die member, Hydroform (Cincinnati Milling)	6-15	61	Universal grinder, Polygon (S&S Machinery)	3-15	552	Industrial cleaner (Patterson Products)	2-1	64
Milling cutter, Style KF Kennamill (Kennametal)	3-15	539	Universal hub contact wheel for grinding (Carburetorite)	5-1	56	Inflated bumper guards (Huu Bumpers)	2-1	72
Monochromatic light (DoAll)	2-15	58	Universal triple drilling machine, Magne Drill (Magna)	4-15	59	Inner tube-puncture-sealing (Goodyear)	2-15	88
New grinding wheel form-truing attachment (P & W Div., Niles-Bement-Pond)	5-1	61	Vane-type pump motor (Hanson Engr.)	5-1	61	Lift truck attachment (Marvel)	1-15	134
Oil-tight pushbuttons (Cross)	3-15	55	Vertical precision boring machine, Style 425 (Ex-Cell-O)	6-15	62	Lift truck-remote control (Baker)	1-15	120
Optical system for linear measurement, Scan-A-Scale (F. T. Griswold)	5-15	60	Weight balance milling machine (Mach & Merryweather)	4-1	59	Lift truck-remote control (Knickerbocker)	1-15	130
Overhead bridge, Tri-matic (Dodge)	3-15	546	Welder-resistance (Taylor-Winfield)	1-15	58	Lift trucks, series FT (Buda)	1-15	60
Overload release, Tri-matic (Dodge)	2-15	70	Welding positioner, Model 21 (Ardentone Mfg.)	1-1	64	Low-cut-in automotive generator (American Bosch)	5-15	64
Paint booth conditioner	-	-	Weber-size cutting machine, Model 80A (Campbell Mach.)	3-15	563	Low pressure tire, Marathon (Goodyear)	4-15	68
Pennsalt FB-1 (Pennsylvania Salt)	4-1	57	Wet blasting machine, Model 43 (American Wheelabrator)	3-15	543	Lubrication, Lube-Lok (Electrofilm)	1-15	70
Pallet binder (Toftolon)	6-1	65	Work positioner for assembly and inspection, the Powarm (Wilton Tool)	6-15	62	MHD and MPH Indicator (H. O. Strong)	6-15	64
Pallet trucks (Tromotor)	2-15	72	-	-	Metal cleaner, 751 (Magnus)	2-15	90	
Pipeless hydraulic presses Elmes Engr.	4-15	61	-	-	Mug guard (Whitehill-Kaves)	3-15	468	
Pneumatic test stand (Green Hydraulics)	6-15	57	New Products	1-15	60	Muffler for high compression engines (Oldberg)	4-15	64
Pneumatic test stand, Model S-481 (Sprague Engr.)	4-1	61	Air gage (P & W Div., Niles-Bement-Pond)	1-15	60	Multiple induction heater, Model 1000 (Industrial Heating)	2-1	78
Portable swinging-arm type automatic press unloader (Sahlin Engr.)	5-15	67	Armored clearance light, No. 476 (Auto Lamp)	3-1	54	Model 1000 (Industrial Heating)	2-1	78
Positive clutch reversible screwdriver (Aro)	3-15	548	Automatic headlight beam control, Autronic-Key (Guide Lamp Div., G. M. Corp.)	4-1	64	Oil diameter, 800 (Bosch)	5-1	118
Power feed on sheet working machines (American Pullmax)	3-15	538	Automatic transmission gage (National Machine & Tool)	4-1	64	Oil filter and refiner, the Oil-pure Refiner (Oilpure Refiner Sales)	6-1	64
Power positioner for critical components (Johns & Lawson)	3-15	547	Automatic transmission oil pump (Almetco Div., Stewart-Warner)	4-1	65	Overhead lubricator, Vapor Master (U.S. Avlex)	1-1	60
Precision boring machine, Model SU (Simplex Mach. Tool)	3-15	552	Automobile brake (Monroe Auto Equipment)	6-1	120	Pistol-grip bore gage (Nilsson Gage)	5-1	65
Precision gear hobber, No. 1 (Hamilton Tool)	2-1	68	Automotive air vent filters (Skinner Purifiers)	5-15	64	Piston rings (Sealed Power)	3-1	64
Precision lathe (Hardinge)	3-15	556	Automotive cooling system protector (Rohm & Haas)	6-1	118	Piston, solid skirt (Frank Morgan)	6-1	64
Precision spring coiler (Comers A Davis)	3-15	558	-	-	Plastic-based batteries (Ovalite)	3-1	54	
Precision surface grinder, bench-type (Viking)	6-1	60	-	-	Plastic-heat resistant (Neogumtack Chemical)	1-15	60	
Press hydraulic (E. W. Bliss)	1-1	60	-	-	Plastic material for spray booths, Vincote (Drexel)	3-15	430	
			-	-	Plastic sealing compound (Chicago Gasket)	1-15	72	

New Products - Continued	Issue	Page	New Products for Aircraft - Continued	Issue	Page	Plastics - See also New Developments & New Products (Features)	Issue	Page
Plastic upholstery (Columbus Corded Fabrics)	6-1	124	Flexible coupling (K. E. Wiggins)	8-1	68	Metal plating on plastics (Plastiplate Co.)	1-1	49
Pneumatic spring booster, AirLift (Air Lift)	8-1	116	Floor fitting (Gordon D. Brown)	1-1	68	Plastic aircraft development near goal in England	8-1	48
Portable piercing unit (Danly Machine)	3-15	430	Generator control system, GC34-1 (Jack & Heintz)	2-1	68	Seven steps in making a plastic body	8-15	48
Power take-off (Davey Compressor)	1-10	124	Hydraulic fluid (Hollingshead)	1-1	68			
Power take-off (Mobile Power)	3-1	64	Latch, No. H-6160 (Hartwell Avi.)	2-1	68			
Pressure control (Minneapolis- Honeywell)			Level switch, Type MCS (General Electric)					
Reel cross slide (Lodge & Shipley)	1-1	80	Magneto with speed-limiting governor (Ormskirk)	5-1	68			
Refrigeration cabinet (Revo)	1-15	78	Nut, self locking (Boots)	3-15	472			
Ring nuts (Wilkenson)	2-1	68	Plastic grommet (Continental- Diamond)	1-1	68			
Rivets, die cast (Gries)	1-1	76	Plastic tape, No. 48 (Minnesota M. & M.)	5-15	68			
Robot machinist (Roco)	1-1	72	Pneumatic coupling (E.B. Wiggins)	2-1	68			
Roll-over clamp (Raker)	1-10	101	Pre-flight aircraft tester,					
Rubber compound (Acushnet)	1-1	66	Bogie wheel tester (Bogue Electric)	5-1	68			
Seal for liquids (Crane Packing)	1-15	90	Pressure filled metallic O-rings (United Aircraft Prod.)	6-15	68			
Short-circuit indicator, the Max-Gage (Hooverst Mfg.)	6-1	116	Push button flush latch (Hartwell Avi.)	6-15	68			
Small aircraft skid (Alien Products)	3-15	468	Rectifier for jet starting (Inet)	4-1	68			
Signal directional (Dietz)	1-1	70	Rotary actuator (Hydro-Aire)	6-15	68			
Silicone rubber impregnated material, ArcoSil No. 2184 (Arrow- head Rubber)			Self-locking fastener (Tinnerman)	5-1	68			
Skid control, gyro Skid (Safety Auto Stabilizer)	8-15	64	Self-propelled generator set, J-22 E1 (Lycoming-Spencer)	3-15	472			
Small gasoline engine, Model K90 (Kohler)	2-15	84	Siliprings (Haer)	2-1	68			
Spark plug with V-Shaped electrode, V-Jap (V-J Mfg. Co.)	8-1	64	Starter-turbine engine (Hamilton Standard)	6-15	128			
Spot-reducing type 5B (Westinghouse)	1-15	60	Under-frequency and overspeed controls (Eltectroquipt)	1-1	68			
Spot-welder (Maurer)	1-15	114	Water cooled environment-free alternator, the 97b (Jack & Heintz)	6-1	68			
Spray gun for protective finishes, Type P-CV (DeWibbles)	8-1	64	Water injection pump (Lear)	4-1	68			
Spring winder, the Spring Master (DoAll)			New Products - Methods					
Stainless clamp, Series 21 (Specialty Products)	1-1	74	Cores for castings increased six times (Osborn Mfg.)	3-1	27			
Starter, jet engine (Jack & Heintz)	1-15	72	Latest methods featured at Quality Control convention	6-15	144			
Starting tool (California Oil)	1-15	114	Metal plating on plastics (Plastiplate Co.)	1-1	49			
Three-cell construction, Type FLX (Electric Storage Battery)			New time-saving equipment for sealing piston rings (Makagon)					
Synthetic tire and tube (Goodyear)	8-1	64	Fiston Rings	3-1	45			
Tachometer (Metron)	3-15	432	Shell mold casting method invades automotive field	6-1	42			
Tape recorder, model 307 (Amplex)	1-15	90	Testing parts for leaks with high vacuum equipment at Whittington	6-1	100			
Taping head (Minnow Product Engr.)	2-1	78	Pump					
Test kit for G.M. Diesel engines, Tool No. J4209-41 (Kent-Moore)	4-15	64	New Products - Features					
Testing machine, model 120-H (Model 120-H Machine)			America's press faster, the Lodac, increases output and eliminates hazards (Magnaflux)	5-15	43			
Third scale units for trucks (Detroit Automotive Products)	4-15	64	Gear tooth cutting time reduced for tank turret rings on broaching machine (Colonial Broach)	3-1	42			
Thread ring cage of titanium carbide (Pipe Machinery)	3-15	432	Muffler of improved design for high compression engines (Oldsmobile Mfg.)	6-15	74			
Top cylinder lubricator (Hollingshead)	2-15	82	Presses with attachment com- pensators for altitude (Solex)	4-15	55			
Torque converter, Model 17-E (Torcon)	2-15	84	Special machine punches slots in jet engine shroud rings (Fawley)	1-15	54			
Tractor breakaway valve (Waggon Electric)	2-15	90	Special machines for making small parts (De Soto)	4-15	56			
Transmission oil checking device (Oil-Eye)			Wheelbar direct hydraulic press - new type press for forming air- craft parts (Douglas Aircraft)	6-1	56			
Transportation seating, Aircraft- Textform (Sponge Rubber)	5-1	54	O					
Trouble spotter, electronic- Electro-Probe (Etkwood)	5-1	116	Oils & Oiling - See Lubricants					
Truck heater (Evans Products)	6-1	64	Organizations - See Associations					
Truck loading device (Efficient Equipment)	1-15	70	P					
Tubeless tire (American Products)	8-1	63	Paints - See Finishes & Color Trends					
Tubeless tire (B. F. Goodrich)	1-15	120	Parts Descriptions - See New De- velopments & New Products (Features)					
Tubing, Utilitube (Alcos)	1-15	65	Pistons - See New Developments & New Products (Features)					
Universal engine governor (Pierce Governor)	4-1	64	Plant Changes - New & Expansion					
Universal joints, Series 1000 (Spicer Mfg. Div., Dana Corp.)	2-15	84	Chrysler-Delaware plant tools up for tank production	4-15	32			
Utility cart, model 1016 (Coleman-Petersen)	1-15	129	Ford's engineering facilities	3-1	32			
Wheel weights for passenger cars (Lomey)	4-15	66	New defense facilities	1-15	137			
New Products for Aircraft			New defense facilities	3-15	605			
Air check valve (Cornellius)	6-1	68	New defense facilities	1-15	72			
Automatic pilot, G-3 GE	4-1	70	New defense facilities	5-15	53			
Bearing anti-torque device (Scintilla Magneto)	8-15	68	New defense facilities	6-15	96			
Blower, high frequency (American Electric Motors)	6-1	130	Production highlights of Cadillac-Cleveland tank plant	2-1	46			
Control switch, No. 1460-22 (Transco)	2-1	68	10,145 jet engines - at new Lockheed plant (ME)	4-15	44			
D-C timer (Bendix Avi.)	4-1	70						
Dynamotors (Eicor)	6-1	130						
Electrical connectors (Titeflex)	4-1	70						
Electro-mechanical mechanism (Minneapolis-Honeywell)	5-15	68						
Electronically controlled in- verters (Eicor)	4-1	68						
Emergency hydraulic hand-pump, model 100 (Green Hydraulics)	5-15	66						
Fluid displacement pump, the PMA, PFATZ-2, and PFATZ-2 (Vickers)	5-15	66						
Flame-retardant plastic (Synthane)	5-15	68						
	5-15	68						

AUTOMOTIVE INDUSTRIES--INDEX

January 1, to June 15, 1952

Production - Including Factory Sales - Continued	Issue	Page	Production Methods - Continued	Issue	Page	Rubber & Synthetic Rubber Continued	Issue	Page
Slab zinc production, shipments, stocks	3-15	336	Steering hydraulic steering gear - its construction and operation	1-15	51	U.S. consumption of natural, synthetic and reclaimed rubber	3-15	331
Steel ingot production	3-15	332	Sealing the Thunderjet (Republic Aircraft)	4-15	40			
Tin production, consumption, stocks	3-15	336	Seven steps in making a plastic body	5-15	46	S		
Total engine hp of civil aircraft engine shipments	2-15	239	Shell mold casting method involves automotive field	6-1	42	Safety Glass - See Glass & Design		
Tractor shipments by type and hp ratings	3-15	96	Special machine punches slots in jet engine around rings (Dowdy Machine)	1-15	54	Sales - New Car Registrations. For Factory Sales, see Production		
Truck trailer shipments by months	3-15	96	Special machines for making small parts (DeSoto)	4-15	36	Government policies hit car sales in Australia		
Truck trailer shipments by type (% consumption of natural, synthetic and reclaimed rubber)	3-15	96	Spindle and pinion machining problems (Nash Motors)	2-1	51	New car and truck registrations - by years	5-15	74
U.S. primary aluminum production	3-15	336	Subcontractors have big part in Martin aircraft production	6-1	33	New car registrations by months, 1947-1951	3-15	101
Value of shipments of excavating and earthmoving equipment	3-15	330	Surface finish -- its effect on wear (abstract)	2-15	120	New passenger vehicle registrations, by states	3-15	100
Production Methods - See also Welding & Cutting			Tank body output upped by new technique (McGraw-Hill-Hamilton) 10,146 jet engines - at new Lockheed plant (GM)	1-15	58	New passenger car registrations by makes, by years	3-15	99
Aircraft magnesium castings must meet exacting requirements	2-1	40	Unique handling of chips and cutting fluids at De Soto's engine plant	4-15	44	New truck registrations - by makes and g.v.w.	3-15	101
Automatic machining of intake manifolds (Ford)	3-1	72	Welding jet engine parts of heat resistant metals (Sciaky Bros)	5-1	34	New truck registrations by makes, by years	3-15	99
Automatic press feeder, the Lodeac, increases output and eliminates hazards	5-15	43	What it took to put Allison tank transmissions in full production	5-1	41	1961 new car registrations - by rank	3-15	101
Patent office's biggest bombers (Consolidated Vultee)			Willys-Overland's latest equipment for car production	5-1	38	1961 new truck registrations - by rank	3-15	101
Chrysler-Delaware plant tools up for tank production	4-15	32	Q		Regional sales of new passenger cars	3-15	100	
Construction of the Willys-Overland body and frame	4-15	46	Quality Control		Salvaging			
Cores for castings increased six times (Obsoen Mfg.)	3-1	27	Establishing the inspection of industrial products (abstract)	6-15	148	Army vehicles reclaimed in huge salvage operation	5-15	32
Costs reduced with stamped rocker arms at Toledo Stamping	6-15	48	Latest methods featured at Quality Control Convention	6-15	144	Scraping - See Junking		
Different cars by the millions	6-1	44	Vendor quality level certification (abstract)	6-15	146	Shock Absorbers - See New Developments & New Products (Feature)		
Electronic computer mechanisms for U.S. Air Forces (AC Spark Plug)	5-1	54	R		Show			
Engine plant operation by automation (Ford)	3-1	36	Racing - See Contests		American cars dominate Italy's Automobile Show	5-15	37	
Fast economical descaling by use of induction heat (International Harvester)	1-15	43	Railroad & Rail Cars		Belgian Automobile and Truck Show attracts large field of exhibitors	2-15	32	
Ford's new engine test facility	3-1	32	Specifications of Diesel engines for use in Diesel-electric locomotives	3-15	289	87 makes of tractors at French Exhibition	4-1	100
Fuel tanks formed with hydraulic pressure (Douglas Aircraft)	1-15	33	Registrations - See also Aviation, Motor Boats, Motorcycles. For New Car Registrations, see Sales. Aircraft and pilot certifications	3-15	239	General Motors packaging methods featured at National Exhibition	5-1	44
Gear tooth cutting time reduced for tank turret rings (Colonial Brosch)	3-1	42	Aircraft and landing fields by size and type	3-15	241	Huge ASTE Industrial Exposition opens in Chicago	3-15	409
High production heat treatment of steering gear parts (Ross Gear)	1-1	50	Canadian motor vehicle registrations - by Provinces	3-15	98	Several new cars displayed at 1962 Geneva Automobile Show	5-1	114
High production machines in plant of Vauxhall Motors	4-1	48	Cars in use by makes, states and model year	3-15	108	Spark Plugs - See New Developments & New Products (Features)		
Heavy gauge metals for joining heavy gauge metals at Ryan and Republic plants	4-1	48	Cars, trucks and tractors on farms - by states	3-15	291	Specifications		
Jet engine parts made on huge presses at Ryan	5-15	54	Civil aircraft by engine classifications	3-15	106	Diesel Engines for use in Diesel-Electric Locomotives	3-15	289
Latest methods employed at Austin assembly plant	5-15	44	Civil aircraft by make	3-15	236	Military Cargo Vehicles	3-15	182
Lincoln engines built and tested on carriers of special design	6-15	52	Civil aircraft by year of manufacture	3-15	239	1962 Automotive Diesel Engines	3-15	282
Machining done on high temperature alloys	6-15	52	Motor boats by customs port	3-15	229	1962 British Passanger Cars	3-15	184
Modern facilities for painting tank trailers at Fruehauf	5-1	46	Number and per cent of cars in use, by age groups	3-15	291	1962 City and Intercity Buses	3-15	156
More forgings with radiant furnaces at Oldsmobile plant	4-1	37	Number and per cent of trucks in use, by age groups	3-15	107	1962 Other Foreign Cars	3-15	165
New machines at Buick plant weld brackets to axle housings	5-15	34	Passenger cars in use by makes and model year	3-15	107	1962 Passenger Car Body Dimensions - height and length	3-15	132
New time-saving equipment for machining piston rings (Muskegon Piston Ring)	3-1	45	Passenger cars in use by makes and model year	3-15	125	Dimensions - width and misc.	3-15	131
New type hydraulic press for forming aircraft parts - the Wheelock direct hydraulic press (Douglas Aircraft)	6-1	56	Trucks in use by makes, states and model year	3-15	124	1962 Tractors - tracklaying types	3-15	159
Operations in extruding hollow steel propeller blades (Curtiss-Wright)	5-15	38	Total U.S. motor vehicle registrations by states, 1961-1960	3-15	105	1962 Trucks	3-15	149
Plastic aircraft development nears goal in England	6-1	48	Transit buses - number in use, deliveries and passengers carried	3-15	104	1962 U.S. and British Aircraft Gas Turbine Engines	3-15	250
Precision applications of Hi-Jet system (abstract)	2-15	37	Trucks in use by makes and by model year	3-15	125	1962 U.S. and Foreign Civil Aircraft	3-15	248
Precision machining produces quiet gears (Chrysler Marine & Ind. Eng.)	4-1	50	Trucks in use by makes, states and model year	3-15	116	1962 U.S. and Foreign Military Aircraft	3-15	246
Precision forging of turbine vanes, blades and buckets (Packard)	6-15	34	Ranking of the states according to 1961 total registrations	3-15	105	1962 U.S. Outboard Motors	3-15	242
Producing artillery shells by mass automotive methods	6-1	33	U.S. civil aircraft - by states	3-15	240	1962 U.S. Rotor Wing Aircraft	3-15	245
Production highlights of Cadillac-Cleveland truck plant	2-1	46	U.S. motor vehicle registrations, 1960-1961	3-15	240	1962 U.S. Small Gasoline Engines	3-15	288
Production of large engine crankcases (Continental Motors)	1-1	42	World registrations by Continental divisions	3-15	103			
Proper lubrication vital on truck assembly lines	4-15	51	Roads - See Highways	3-15	104			
Refrigeration finds wider use in aircraft industry (Douglas Aircraft)	1-1	53	Rubber & Synthetic Rubber					
Rewind using transfer machines for Fregate mass production	2-1	54	Production, consumption & stocks of synthetic rubber	3-15	331	Steering		
Rockets for bazookas (Ford Motor)	1-1	54	Rubber shortage foreseen unless facilities are expanded (statement by Litchfield of Goodyear)	3-15	72	High production heat treatment of steering gear parts (Ross Gear)	1-1	50

Side mirror shield			Bendix Aviation Corp.			Fastener	1-15	124
Allis-Chalmers Mfg. Co.	1-15	53	Testing brakes under severe operating conditions			Chevrolet Shell Div.		
Argo's newest cargo tractor, the MHE2			Betta Machine Co.	3-15	470	producing artillery shells by mass automotive methods	5-1	33
Allison Div., General Motors Corp.	4-1	32	Clearance light, 8-60			Chicago Gasket Co.		
What it took to put Allison tank transmissions in full production			Black Drill Co.	2-15	76	Plastic sealing compound	1-15	72
Aluminum Co. of America	1-15	60	Drilling unit			Chicago Tool & Engrg. Co.		
Tubing			Bias, E. W., Co.	2-15	56	Rotary table with dual cross-feed, Palmetto No. 88	3-15	526
American Beach Corp.	5-15	64	Double-action toggle presses			Chrysler Corp.		
Low cut-in automotive generator			Rock presses for high-speed operation			Delaware plant tools up for tank production	4-15	35
American Cladmetals Co.	5-15	102	Hydraulic straightening press features two-dimension positioning			Surface finish -- its effect on wear (abstract)	2-15	120
Roslyn metal undergoes high temperature tests			Knuckle-Joint press	4-1	57	Chrysler Corp., Marine & Industrial Engine Div.		
American Electric Motors, Inc.	6-1	120	Press, hydraulic	1-1	60	Precision machining produces quiet gears	4-1	80
Blower, high frequency			Blue Magic Chemical Specialties Co.	1-15	78	Cincinnati Milling Machine Co., The		
American Industries Co.	1-15	124	Barrel finishing compound, No. 5			metal forming machines use hydraulically pressurized die member, Hydroform	6-1	61
Hydraulic control valves			Bogie Electric Mfg. Co.	5-1	68	Cincinnati Shaper Co.		
American Pullman Co., Inc.	3-15	536	Pre-flight aircraft tester, Bogue Nacelle tester			Shaper with magnetic clutch	4-1	88
Power feed on sheet working machines	2-15	76	Boots Aircraft Nut Corp.	1-1	68	Clark Equipment Co.		
Trimmer			Nut, self locking			Simplified synchronizer for Clark transmissions	6-1	39
American Sig Corp.	3-15	541	Bowles, Stanley D., Co.	5-1	118	Clearing Machine Corp., Hamilton Div.		
Jig boring and milling machines			Oil dispenser, B & B			Heavy-duty double housing planers	4-1	58
American Ventilating Hose Co.	3-1	82	British Industries Corp.	2-1	56	Cleco Div., Reed Holler Bit Co.		
Flexible hose			Shaping machine			Air-powered countersinking tool	3-15	538
American Wheelabrator & Equipment Corp.	3-15	543	Brown, Gordon D.	1-1	68	Cleveland Tapping Machine Co., The		
Wet blasting machine, Model 43			Floor fitting for aircraft			Compound table tapping machine	3-15	558
Amper Electric Corp.	1-15	80	Brown Instruments Co., Div., Minneapolis-Honeywell Regulator Co.	5-1	62	Colman-Petterson Corp.		
Tape recorder, Model 307			Circular chart controller			Utility car, Model 1016	1-15	129
Anchor Coupling Co., Inc.	3-15	554	Time and temperature controller, Electronik	5-1	60	Colonial Broach Co.		
Split-flange clamp			Brown, Charles, Co., Inc.	3-15	411	Bed broach cutting time reduced for tank turret rings	3-1	42
Annis, R. B., Co.	3-15	548	Duplicating machine, Copyflex Model 20	5-1	59	Pull down automatic broaching machine	5-15	57
Balancing machine			High speed low-priced copying machine, Model 30			Columbus Coated Fabrics Corp.		
Aro Equipment Corp.	3-15	546	Bruning Bros., Inc.	3-15	468	Plastic upholstery	6-1	124
Positive clutch reversible screwdriver			Automotive enamel line			Convers & Davis Sales Corp.		
Armenon Machine Co.	3-15	546	Bush Development Co., The	5-1	62	Precision spring coiler	3-15	568
Large-hole turntable, Model X-2011S	6-15	57	High gain preamplifier, Model BL-564			Consolidated Vultee Aircraft Corp.		
Welding positioner, Model 21	1-1	64	Magnetic oscillograph amplifier, Model BL-962	3-15	410	Building world's biggest bombers	4-1	36
Arrowhead Rubber Co.	5-15	64	Universal amplifier, Model BL-963			Continental Aviation & Engrg. Corp.		
Silicone rubber impregnated material, Arcosil No. 2184			Buck Tool Co.	3-15	550	Gas turbines necessary for small aircraft progress	1-1	46
Austin Motor Co., Ltd. (England)	5-15	64	Jaw chuck			Turbomeca gas turbines (abstract)	5-15	41
Latest methods employed at Longbridge assembly plant			Buds Co., The	6-15	62	Continental Diamond Fibre Co.		
Auto Lamp Mfg. Co.	5-15	44	Fork lift trucks, Diesel and gasoline powered	1-15	60	Plastic grommet	5-15	68
Emergency light, Flash-A-Signal	5-1	64	Lift trucks, series FT			Continental Motors Corp.		
Armored clearance light, No. 476	3-1	54	Bahr Machine Tool Co.	6-15	58	Air-cooled engines	3-1	53
Automatic Transportation Co.	5-1	74	Drilling and tapping machines	4-1	59	Production of tank engine crankcase	1-1	42
Range of lift trucks increasing			Drilling machine for tank parts	2-1	56	Continental Tool Works Div., Ex-Cell-O Corp.		
Baker Industrial Truck Div., Baker-Hauling Co.	1-15	120	Friction-type machine			Countersink set, Carbide tipped cutters	3-15	538
Lift truck-remote control			Buick Motors Div., General Motors Corp.	1-15	44	Cooley Electric Mfg. Corp.		
Rollover clamp	1-15	101	New Buick features for 1962			Electric box furnace, Type BL	2-1	76
Baldwin-Lima-Hamilton Corp.	1-1	68	New machines at Flint plant			Corneilus Co.		
Bolt extensometer	1-1	74	weld brackets to axle housings	5-15	34	Air check valve	5-1	68
Creep recorders			Bulldog Electric Products Co.	6-1	60	Crane Packing Co.		
Table model fatigue testing machine, Model SP-2	4-1	58	General purpose circuit breaker panelboard, PB Electri-Center			Seal for liquids	1-15	60
Tank test output upped by new techniques	1-15	58	Cadillac Motor Car Div., General Motors Corp.	5-1	22	Cross Co.		
Testing machine, Model 120-M	5-1	64	Design feature of F-41 Tank	2-1	33	Automatic machine for intake manifolds	5-1	58
Beds Products, Inc.	3-1	52	New Cadillac has 100 hp engine			Cutter driving device	1-1	66
HOT-spray heater, Model R			Production highlights of Cleveland tank plant	2-1	46	Machine, cylinder head	1-1	60
Bell Aircraft Corp.	6-15	56	2-1			Machine for exhaust manifolds	5-15	60
Gas turbines versus reciprocating engines (abstract)			California Oil Co.	1-15	134	Machine tool for oil pump bodies	2-1	58
Bellows Co., The	3-15	568	Starting tool					
Air-powered drilling unit, Hydrair			Campbell Machine Div., American Chain & Cable Co., Inc.	3-15	568
